DFAM

SUBHARMONICON

NOTES

Use the suggested sequences, or create new sequences on Subharmonic ([Lesson 1](#)).

Use the **ADVANCE** button on DFAM to set the sequencer to step 8.

Press **PLAY** on Subharmonic, and press **RUN/STOP** on DFAM.

Press and hold the **SEQ OCT** button on Subharmonic until the ± 2 LED indicator starts blinking.

Adjusting the **VCA DECAY** setting on DFAM will have a dramatic effect on the whole patch.
